Invest in a Better Quality of Life for your Oncology Patient

While your cancer center provides patients with the most up-to-date tools and techniques, the Image Recovery Centers® program assist the oncology professional by:

Why choose to invest in a site license with Total Image Care, Inc.?

There are currently Image Recovery Centers® in:

Imagerecovery.com

- Providing an on-site resource of information and services regarding the appearance-related side effects of the disease and/or treatment
- Allowing input and oversight to the services and products available to cancer patients
- Providing each patient a dynamic appearance care plan that coordinates with treatment protocols and nursing care plans
- Completing the nursing care plan to ensure the patient understands and is prepared for the possible cosmetic changes associated with the side effects of treatment and/or disease
- Focusing education on prevention of complications related to hair, nails, skin, etc. during treatment
- Increasing overall patient satisfaction with the overall oncology experience at your cancer center

Total Image Care, Inc. has made the program known as Image Recovery Centers® available as a turn-key, yet flexible program at a fraction of the cost of developing the program in-house. The company founders bring a unique combination of health care operational and financial experience to every implementation. The program founder is licensed and certified in the core service areas and has personally provided services to thousands of oncology patients. Perhaps even more important, our company's founders are patients and families of patients with first-hand experience in battling cancer.
